***Allowable Subject Matter***

1. Claims 29, 30 and 32-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The prior arts of record do not anticipate or render obvious to one skilled in the art a liquid crystal display device comprising various elements as claimed, more specifically the limitations such as each of the pixel electrodes including a plurality of electrode units disposed through a slit and electrically connected to each other wherein each of the electrode units includes a solid part and a plurality of extension parts extending from the solid part toward an outer peripheral direction of the electrode unit and a ratio of a square measure of the solid part to a square measure of an area within an outer periphery of the electrode unit being 50% or more are considered novel.
4. The closest reference US 2003/0071952 (Yoshida) discloses a liquid crystal display device having pixel electrodes that includes plurality of electrode units electrically connected to each other and disposed through slits having a solid part and extension parts. But Yoshida (commonly owned) alone or in combination with any other prior art references fail to teach or suggest that a ratio of a square measure of the solid part to a square measure of an area within an outer periphery of the electrode unit being 50% or more.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tarifur R. Chowdhury whose telephone number is (571) 272-2287. The examiner can normally be reached on M-Th (6:30-5:00) Friday Off.
